

JAYAPRAKASH V

Full Stack Developer

Cuddalore, Tamil Nadu | +91 8148464476 | jayaprakashv2410@email.com

PROFESSIONAL SUMMARY

Full Stack Developer with a Bachelor of Technology in Information Technology and hands-on internship and project experience building web applications using React.js, Node.js, Express.js, JavaScript, TypeScript, and SQL. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, REST API development, database management (MySQL, PostgreSQL), and the software development life cycle (SDLC). Comfortable working in Agile/Scrum teams with Git/GitHub version control. Quick learner, detail-oriented, and eager to contribute to real-world software projects.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, SQL

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), SDLC, Problem Solving

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design

Backend Development: Node.js, Express.js, FastAPI, Flask, REST API Development, JWT Authentication, MVC Architecture

Databases: MySQL, PostgreSQL, Database Design, SQL Queries

Tools & Practices: Git, GitHub, VS Code, Figma, Agile/Scrum, Unit Testing, Debugging, Application Performance Optimization

WORK EXPERIENCE

Full-Stack Development Intern — Scode Software Solutions

07/2025 – 07/2025

- Developed and maintained full-stack web applications using React.js, JavaScript, Node.js, Express.js, and SQL, delivering features in an Agile development workflow.
- Debugged application issues, tested new features, and improved application performance and reliability across the codebase.
- Collaborated with cross-functional developers using GitHub for version control, code reviews, and Agile sprint planning.

PROJECTS

Project Management Dashboard — Personal Project

07/2026 – 08/2026

- Developed a full-stack project management web application for managing projects, tasks, milestones, and deadlines using React.js, Node.js, and REST APIs.
- Built reusable, scalable React.js components and integrated RESTful APIs for project, task, milestone, and user management.
- Designed interactive, data-driven dashboards to visualize project progress, task status, deadlines, and key performance metrics.

Smart Student Monitoring System — Final Year Project

11/2025 – 04/2026

- Built a full-stack attendance management dashboard for tracking student attendance, academic performance, and analytical reports using React.js and REST APIs.
- Implemented role-based access control and reusable React.js components to manage attendance data and user information.
- Integrated frontend and backend services, handled API requests and database operations, and optimized performance across different screen sizes.

Amazon Clone Marketplace — Personal Project

06/2025 – 10/2025

- Developed a full-stack e-commerce web application featuring product catalog, search, category-based filtering, shopping cart, and order management.
- Built reusable, scalable React.js components and integrated RESTful APIs for user authentication, product operations, cart management, and order processing.
- Implemented frontend-backend integration, managed application state, and worked with relational databases for data persistence.

EDUCATION

Bachelor of Technology in Information Technology

11/2022 – 04/2026

P.T. Lee Chengalvaraya Naicker College of Engineering and Technology, Kanchipuram, Tamil Nadu (Affiliated with Anna University) | GPA: 7.97/10
